PROFILE

Software Developer with 2+ years of experience specializing in web and backend development, with experience in building RESTful APIs and server-side applications using Laravel, Node.js, and NestJS, and developing frontend interfaces with React and Tailwind CSS.

EDUCATION

Universitas Islam Negeri Sumatera Utara Medan

Bachelor's Degree Information Systems | 2022–Present

GPA (Current): 3.92/4.0

Database Systems, Web Application Development, Software Engineering, Information Systems Analysis.

EXPERIENCE

Qansa

Software Engineer | Jan 2026–Present

- Developed and maintained RESTful APIs using Laravel for internal systems
- Optimized complex SQL queries and improved database performance on large datasets
- Implemented scalable data processing for incident and device monitoring systems
- Collaborated with team members to build new features and resolve production issues

Era Cipta Digital

Web Developer | Oct 2024–Dec 2025

- Developed and maintained backend services using Laravel for internal business applications.
- Built and integrated RESTful APIs using NestJS consumed by frontend applications.
- Deployed applications to production and handled basic server maintenance (NGINX, Linux).
- Improved API response time and data consistency through database query optimization.

Rumah Sakit Mitra Medika Premiere

Back-end Developer Internship | Jul–Aug 2024

- Developed RESTful APIs for hospital management features using PHP.
- Designed and optimized MySQL database schemas for patient-related data.
- Collaborated with senior developers to integrate backend services with frontend systems.

SKILLS

Backend: Laravel, Node.js, NestJS, Hono

Frontend: React, Tailwind CSS

Databases & ORM: MySQL, PostgreSQL, Prisma

DevOps & Tools: Docker, Git, GitHub Actions, NGINX, Linux, Bruno
